

*Come join us in beautiful Cancun Mexico for the
1st Annual Therapeutic Temperature Management
Congress ...Cardiac Arrest and Beyond*

December 4-7, 2007

“Induced hypothermia is being used with increasing frequency to provide protection for the brain, spinal cord and other organs against post-ischemic and post-traumatic injury” ~ Kees H. Polderman, MD

REGISTRATION

If you would like to attend the Therapeutic Temperature Management Congress, please contact Watermark Research Partners at 888-457-1818 US or 317-576-1818 International. Registration is also available online at www.TTMCongress.com.

TARGET AUDIENCE

The target audience for this program includes US and international physicians, academicians, clinical researchers, ER/ICU Nurses and other healthcare professionals involved in Therapeutic Temperature Management. This program is directed toward healthcare professionals interested in reviewing the most recent clinical trial data and treatment through therapeutic hypothermia and temperature modulation in patients.

An application has been submitted to the Indiana State Nurses Association for approval of 20 contact hours. ISNA is an accredited approver of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.
