

**ANIMAL FLESH EATERS, VEGETARIANS, AND
GOVERNMENT LEADERS THROUGHOUT THE WORLD**

UNITE

YOU MUST TAKE ACTION SOON

“BEFORE IT IS TOO LATE”

Together you could have the power and worldwide influence to save the lives of billions of animals. Ultimately creating a multitude of everlasting monumental benefits for humans, the earth, and the earth's atmosphere. Together your revolutionary profound efforts could be responsible for shutting down most or all animal factory farms and slaughterhouses in the world.

Carbon dioxide, methane, and nitrous oxide together cause the vast majority of global warming. Raising animals for food is one of the largest sources of carbon dioxide and the single largest source of both methane and nitrous oxide emissions.

Removing animal flesh from the food chain may be the only realistic, viable, manageable, enforceable, and most effective government solution immediately needed to slow down global warming, and to ultimately play the largest role in stopping it.

The human race cannot run away from or escape the consequences of global warming. Monumental cataclysmic disasters that are going to continue happening unless the wisest, practical, and most realistic solution is implemented immediately, if not sooner!

If government leaders do not begin to write emergency legislation designed to pass laws removing animal flesh from the food chain soon then humans, animals, and the earth will be confronted with the continuous escalation of widespread nonstop mega catastrophes!

Global warming is potentially the most formidable, seemingly impregnable, possibly unstoppable deadly force in the history of the world.

It seems like nature's awesome retaliatory powers are being unleashed with devastating force in an effort to destroy humanity before humanity destroys the earth and all the creatures that dwell here.

When this battle between nature and humans is over only the earth and the animals may survive.

During the next few years a large number of countries will likely be engulfed in any one or many of the following calamities.

A constant escalation of heat waves, violent torrential storms, hurricanes, catastrophic flooding, cyclones, earthquakes, tsunamis, uncontrolled wild fires, draughts, famines, diseases, and starvation.

Causing massive destruction to the earth and countless deaths to humans and animals.

10 to 20 years from now or sooner much of "the quintessence, and grandeur of the once majestic life supporting earth" could

very possibly look like a dilapidated, barren, polluted wasteland occupied by millions of vulnerable homeless defenseless humans and their animals trying to escape the deadly consequences of global warming.

Hordes of tired, helpless, weak, listless, lethargic adults, children, and their pets, crammed together in dark, dreary, windowless structures located throughout the world.

People and animals uncontrollably and pathetically defecating or urinating while sitting or standing in long food lines.

Unstopped suffering with the frightening prospect of no way out, no one to rescue them, and no where to go.

Desperately hoping that someone or something will save them from the likelihood of an agonizing painful premature death caused by starvation, disease, fire, or drowning.

This is the ultimate price that a large portion of the human race may end up paying as retribution for unnecessarily and mercilessly supporting, promoting, and participating in the destruction of God's precious irreplaceable creatures, as well as recklessly polluting the earth, and the earth's atmosphere.

Please take a close look at the following videos of the needless heinous torture and mass murder of God's creatures, each with a soul, which goes on every working hour in factory farms and slaughterhouses throughout the world.

Animal flesh eaters and government leaders throughout the world. You absolutely must stop supporting and promoting what you are about to see. Please focus, concentrate, and keep your eyes wide open while you view the worst kind of cruelty and death.

Only humans are capable of devising, supporting, and promoting such disgusting "completely unnecessary cruelty" which may now lead to their own destruction.

Shockingly, because of the escalation of global warming ice sheets are melting much faster than predicted by many climate models, and a catastrophic fracture of various ice sheets in Greenland and the Antarctic regions could cause sea levels to rise by amounts as high as 20 to 23 feet “in a much shorter period of time than most experts have predicted.”

Imagine within the next several years many of the cities along the coastlines of the United States and many other countries severely flooding, paralyzing and destroying infrastructures.

The 10 countries with the most people in low coastal areas are Bangladesh, China, Egypt, India, Indonesia, Japan, Thailand, United States, and Vietnam. Bangladesh, a nation of 145 million, occupies a river delta located barely above sea level.

China and Vietnam have already experienced terrible weather ranging from torrential rains, strong winds, landslides, power outages and flooding in China to a typhoon causing severe flooding in Vietnam.

SUMMARY:

Animal flesh eaters and all government leaders throughout the world, please wake up soon!!

When you finally make “the inevitable decision” to support kindness and life for all animals then you will collectively have the power and influence to create a worldwide society that will undergo a remarkable positive transformation resulting from the removal of all animal flesh from the food chain.

“Imagine” reading headlines and news flashes like the ones that follow that would shock and impress the world “like never before.”

NEWS FLASH:

AL GORE FINALLY ANNOUNCES TO THE WORLD THAT HE HAS BECOME A VEGETARIAN AND RECOMMENDS THAT ALL ANIMAL FLESH EATERS DO THE SAME. THE RENOWNED GLOBAL WARMING EXPERT "TALKED THE TALK" AND NOW HE "WALKS THE WALK."

NEWS FLASH: BELIEVE IT OR NOT!!

GOVERNMENTS THROUGHOUT THE WORLD ARE BEGINNING TO SHUT DOWN ANIMAL FACTORY FARMS AND SLAUGHTERHOUSES!

NEWS FLASH:

SUMPTUOUS EARTH GROWN VEGETARIAN BASED FOODS WILL REPLACE ANIMAL FLESH IN THE FOOD CHAIN IN THE U.S. REVOLUTIONARY CHANGE WILL SAVE THE LIVES OF COUNTLESS ANIMALS AND COULD HELP SAVE THE EARTH.

NEWS FLASH:

LAST ANIMAL FACTORY FARMS AND SLAUGHTERHOUSES WILL OFFICIALLY CLOSE IN THE UNITED STATES. BILLIONS OF PEOPLE WILL VIEW THIS WONDEROUS EVENT!!

HEADLINE:

NO MORE OF GODS BELOVED CREATURES WILL BE TORTURED, MURDERED, AND EATEN IN THE UNITED STATES.

HEADLINE:

IMPOSSIBLE DREAM COMES TRUE IN THE UNITED STATES. CRUELTY TO ALL ANIMALS IS OUT. KINDNESS AND LIFE FOR ALL ANIMALS IS IN!!

NEWS FLASH:

CHURCH BELLS POISED TO RING THROUGHOUT THE UNITED STATES WHEN THE LAST SLAUGHTERHOUSE CLOSES.

Commentary: To all animal flesh eaters.

Think how wonderful it will be and how great you will feel when you stop using your stomach as a graveyard for decaying flesh from the corpses of tortured and murdered animals?

Certainly, if heaven really does exist, you can be sure that animals are not tortured, murdered and eaten there. Therefore, since there is no animal flesh to eat in heaven, now might be an excellent time to change your eating habits.

Consider the real possibility that when you attempt to rescue or protect any of Gods creatures from the ravages of cruelty and unnecessary death, you may in turn, rescue a part of your soul.

Animal flesh eaters, may your sincere affections and sympathy for animals lives generate love, compelling you to seek an identity with this cause?

God sees each one of us for what we really are, not necessarily for what we profess to be. God knows whether we are genuine or a fraud!

Look deep into the eyes of any animal, and then for a moment, “trade places.” Their lives become as precious as your life, and you become as vulnerable as them. Now smile if you believe all animals deserve our respect and our protection. For in a way, they are us, and we are them.

Philip Ochoa — All For Animals.

Those without wealth may one day prosper, but those without kindness are utterly and incurably poor.

The choice is yours. Kindness and life or cruelty and death?

For the sake of all animals.

Arthur Poletti

Former animal flesh eater.

USA

Author of the back to the future short story:

God Does Not Eat Meat
