IQinVision, The Leader In Multi-Megapixel IP Video Systems, Expands East Coast And European Operations

Tech support hours to increase for the IQeye and the IQevent Recording System

For Immediate Release

SAN CLEMENTE, Calif./EWorldWire/July 5, 2005 --- IQinVision is expanding to address the rapid growth of its IQeye Megapixel IP Video Systems business and maintain its outstanding reputation for customer service.

"Our East Coast and European business is growing fast," said Pete DeAngelis, President and CEO. "We must ensure our new customers and partners receive the world-class support that defines IQinVision, so we are strengthening our regional resources."

Paul Bodell has assumed the role of Vice President of Sales and Marketing and is opening a Sales/Marketing/Support center in Lancaster, Pennsylvania. Don Ashley, formerly of Bosch Security Systems, has joined IQinVision as Field Sales Engineer and will manage the East Coast Support Center. Rick Davitt, formerly the Vice President of Marketing, has been elected to IQinVision's Board of Directors.

IQinVision also plans to double its outside sales personnel by the end of 2005. To better support Europe, IQinVision has hired Martijn Kolenbrander as the European Sales Manager and is opening IQinVision's European sales office in Utrecht, Netherlands.

"The IP Video market is really taking off," said Bodell, "we are putting the right products and people in place to keep us ahead of the competition."

About IQinVision

IQinVision, designs, manufactures and markets high performance, multi-megapixel IP cameras, intelligent video processing platforms and network-video-recording systems. Established in 1998, IQinVision has helped shape the surveillance and industrial video markets as the first to introduce HDTV resolution security cameras, multi-megapixel IP video systems and multi-user digital pan/tilt/zoom. IQeye products offer superior image quality with high-speed, low-light and intelligent video options and are used in a wide variety of government and commercial applications. The IQeye can run in stand-alone mode or can be integrated with other systems via the company's complete Software Developer's Kit and API. IQinVision is privately held and headquartered in California with regional offices in Pennsylvania and Utrecht, Netherlands. The company's products are available as IQeye-branded, private-labeled and custom OEM models. IQinVision's management is committed to exceeding the expectations of its partners and customers.
