## **Digital Descriptor Systems, Inc. Subsidiary To Participate In Marine Transportation And USDOT Seminar**

For Immediate Release

SEA GIRT, N.J./EWORLDWIRE/Aug. 4, 2005 --- CGM Applied Security Technologies, a subsidiary of Digital Descriptor Systems, Inc. (DDSI.PK), an industry leader that develops products for Homeland Security, including supply chain and criminal justice markets, will be participating in the USMMA Global Maritime and Transportation School Seminar on August 15 through August 17.

Robert Frucci, Director for Business Development of CGM AST, will be discussing the security issues related to containerization. CGM AST is a manufacturer of security products that seal and lock cargo, sea containers and trailers while they are unattended in the supply chain. Control of unattended assets is of paramount importance in moving any company's products or in any country's infrastructure Homeland Security plan.

"We are pleased to be invited to participate in these important seminars and conferences to share our expertise in security issues in the supply chain and transportation markets," said Tony Shupin, CEO of DDSI.

This seminar will be attended by Congressional Staff members and DOT, U.S. Maritime Administration (MARAD), DOD and Government Affairs personnel. The main focus of this seminar is to highlight the importance of the maritime industry and its impact on the national economy. "Secure ports and supply chains are critical to ensure the stability of our economy, security and growth. We are thankful for the opportunity to be involved with this seminar and to contribute to the future success of Global Marine and Transportation School (GMATS) and the Maritime Industry," said Bob Frucci of CGM AST.
