DDSI Reports Revenue In Line With Expectations After Merger

For Immediate Release

SEA GIRT, N.J./EWORLDWIRE/Aug. 29, 2005 --- Digital Descriptor Systems, Inc. (Pink Sheets: DDSI), an industry leader that develops products for homeland security, including the supply chain and criminal justice markets, filed its 10QSB for the quarter ended June 30, 2005 this week.

Commenting on the results, DDSI CEO Anthony Shupin said, "We are right on track this quarter. Due to the consummation of the CGM subsidiary in the prior quarter, our revenues have increased 1,182 percent from the same three month period last year." Shupin added, "Although our losses in the same period increased by 225 percent, we are optimistic that our current growth plan should help us to eliminate unnecessary expenditures and improve that number. DDSI incurred additional expenses due to the acquisition (interest, accounting and legal fees), upgrading the infrastructure and adding sales personnel which are reflected in those numbers. We are optimistic that our plan to increase sales while carefully eliminating unnecessary expenditures will help us to improve that number."

CGM, acquired by DDSI in March 2005, is a leading manufacturer and distributor of Homeland Security products.
