

Global Debit Cash Card Subsidiary, A.S.A.P. Funding, Secures Services From An Industry Leading Credit Card Processor

For Immediate Release

LAS VEGAS/EWORLDWIRE/Sep. 15, 2005 --- Accepted Sales Advance Purchase Funding, LLC (ASAP), a subsidiary of Global Debit Cash Card, Inc. (Pink Sheets: GBCD) (Global) has chosen New York-based Cynergy Data (cynergydata.com) to process payment transactions for ASAP's merchant clients. Additionally, Cynergy will manage the collection of the Visa/MasterCard transactions ASAP purchases from those merchants via its AdvanceFundsPlus(TM) program.

"We are excited to be working with Cynergy Data," said Arnold Sock, Global's president.

"They have good technology and tools that are important for us to successfully operate our business, which is to help merchants obtain working capital when they are too small, or otherwise do not qualify, for bank financing."

ASAP chose Cynergy because of its ten-year record of success in the merchant services industry.

Cynergy Data annually processes more than \$1.6 billion in credit, debit, check conversion and other forms of electronic payment transactions. Through its Virtual Merchant Application System, known as Vimas, daily business tasks are made easy for Cynergy's merchant clients who want to monitor their transactions. For ASAP, Vimas allows the tracking of ASAP's merchant clients' sales and how much has been collected for ASAP.

ASAP provides working capital by buying a portion of a merchant's future sales at a discount and then collecting those purchased sales through a credit card processor on a non-fixed payment basis over a period of time as sales occur.

About Global Debit Cash Card, Inc.
