Digital Descriptor Systems, Inc. Subsidiary To Introduce New European Distributor At London Conference

CGM Europe will be exhibiting at Stand 102 during the Airport, Port and Transport Security Exhibition in London, November 8 - 9, 2005.

For Immediate Release

SEA GIRT, N.J./EWorldWire/Oct. 31, 2005 --- CGM Applied Security Technologies, a subsidiary of Digital Descriptor Systems, Inc. (DDSI) (Pink Sheets: DDSI), an industry leader that develops products for Homeland Security including supply chain and criminal justice markets, will be supporting CGM Europe at the Airport, Port and Transport Security Exhibition in Victoria, London on November 8 and 9 at Stand 102 - an event considered the largest European border and transportation security event.

The newest member of CGM-AST's international distributor team and focused on Europe, CGM Europe is a full-line stocking distributor which, in addition to supporting existing European distributors, will work to expand the reseller and distributor network throughout Europe.

"CGM Europe's participation with us at this important exposition demonstrates its commitment as a stocking distributor and its support in meeting increasing demand for CGM-AST products throughout the European Union," commented Michael Pellegrino, CFO of DDSI. "Our alliance is expected to directly increase our revenue from the EU."

Gina Levinson, director of operations for CGM-AST, will be on hand for CGM Europe's debut. "While meeting with distributors and customers from all over Europe, we will build upon the strong relationships we have had for many years and provide a stronger European presence and quicker support and service for our standard products throughout the EU," said Levinson.

"Exhibiting our innovative products and having the direct support of CGM-AST executives at our stand are great ways to maximize the impact our products can have at the APTS," said John Dempsey, managing director of Dublin based CGM Europe.

About Digital Descriptor Systems, Inc.

DDSI develops and markets integrated enterprise-wide image applications designed especially for criminal justice organizations. The company's customers include states, cities, counties, corrections, justice and public safety agencies.
