

ControlScan Certifies Ronin-Online.com As A Safe Shopping Site

In an effort to increase its Internet security, Ronin-Online.com, the leading distributor for Vitashower and Vitabath dechlorinating bath products, today announced today that it has become certified by ControlScan.

For Immediate Release

MARIETTA, Ga./EWORLDWIRE/April 10, 2006 --- As a measure to increase privacy and security and to prevent hackers and thieves from accessing sensitive information from its customers, Ronin-Online.com hired ControlScan and subscribed to the Corporate Secure Plan. Through its unique process, ControlScan will conduct security tests and audits of Ronin-Online.com and certify the site's security.

"Privacy and security are the main concerns of consumers," said ControlScan President and CEO Richard Stanton. "Consumers want to do business with companies who take privacy and security seriously. By passing the audits associated with the Corporate Secure Plan, Ronin-Online.com's visitors are reassured that this company is committed to protecting their personal and credit card information and providing a safe online shopping experience."

Once a company passes the security process associated with the Corporate Secure Plan it receives the Hacker Defended, ID Theft Protected, Privacy Protected and Business Background Reviewed certificates. These certificates are renewed daily, allowing Ronin-Online.com's customers to receive independent third-party verification of the site's actual security before they decide to give out sensitive personal data.

About Ronin-Online.com

Ronin Online is the worldwide authorized distributor for Vitashower and Vitabath dechlorinating bath products. Its exclusive products feature the use of all natural, pure pharmaceutical grades of Vitamin C to completely neutralize the chlorine and chloramines found in bath and shower water. The company's continued commitment to excellence and cutting edge research has taken the shower filter industry by storm. Ronin Online firmly believes the use of Vitamin C as a dechlorinating media to be the next evolution in point of use home water dechlorinating systems.
