

ControlScan Certifies OurFamilyGiftShop.com As A Safe Shopping Site

In an effort to increase its Internet security, OurFamilyGiftShop.com, the leading online gift and gift basket shop, today announced that it has become certified by ControlScan.

For Immediate Release

MARIETTA, Ga./EWORLDWIRE/June 6, 2006 --- As a measure to increase privacy and security and to prevent hackers and thieves from accessing sensitive information from its customers, OurFamilyGiftShop.com hired ControlScan and subscribed to the Corporate Secure Plan. Through their unique process, ControlScan will conduct security tests and audits of OurFamilyGiftShop.com and certify the site's security.

Once a company passes the security process associated with the Corporate Secure Plan, it receives the Hacker Defended, ID Theft Protected, Privacy Protected and Business Background Reviewed certificates. These certificates are renewed daily, allowing OurFamilyGiftShop.com's customers to receive independent third-party verification of the site's actual security before they decide to give out sensitive personal data.

“As information about privacy and security becomes more rampant, consumers are learning that it is not safe to give just any business their personal information. Likewise, business owners understand that they must take precautions to protect themselves and their customers from these criminals,” said Jo Ann Lee, owner of OurFamilyGiftShop.com. “By using ControlScan's Corporate Secure Plan we hope to give both parties the assurance that their transactions are secure.”

About OurFamilyGiftShop.com

OurFamilyGiftShop.com offers a wide selection of gift baskets, fruit baskets, fresh floral arrangements, silk trees, wine baskets and now gifts and baskets for dogs and cats. The gifts are suitable for all occasions throughout the year.

About ControlScan

ControlScan provides third party verification and services to identify, measure and prioritize security, privacy, quality, accessibility and compliance risks that exist on corporate Web properties. ControlScan's solutions provide the visibility and control necessary to evaluate a company's Web property risk exposure, and to put processes and procedures in place to effectively implement online governance strategies.
