

DDSI Digital Descriptor Systems, Inc.

Digital Descriptor Systems' EvidPro Tamper-Evident Evidence Bag To Debut At Twentieth Annual Police Security Expo

Product for securing, protecting crime-scene items will highlight display by CGM-AST, a Digital Descriptor Systems, Inc. company.

For Immediate Release

SEA GIRT, N.J./EWorldWire/June 19, 2006 --- Digital Descriptor Systems, Inc. (DDSI) (Pink Sheets: DDSI), along with its subsidiary, CGM Applied Security Technologies will introduce its latest law enforcement product, the EvidPro tamper-evident evidence bag, at the 20th annual Police Security Expo (www.police-security.com), which begins June 20 in Atlantic City, N.J.

EvidPro bags are specially designed with a unique closure that will provide clear indication if items sealed inside are tampered with. Specifically, a message noting the breach will appear directly on the closure. This system protects both evidence and the personal property of individuals.

"Maintaining the integrity of evidence is absolutely essential in a large percentage of criminal investigations so much so that it can be the deciding factor in a prosecution," says Tony Shupin, president and CEO of DDSI. "Our EvidPro bag has been designed by law enforcement professionals to address their specific needs. It enables police and officers of the court to proceed with confidence, because they know that if their evidence is sealed within our bag, there's been no compromise or contamination."

The tamper-evident bags are available in clear plastic, with large, write-on labels for including relevant or necessary background information. Once contents have been placed in an EvidPro bag and labeled, a receipt can be detached and filed. In addition, a bar code makes it possible for all bags to be scanned and logged into a database.

Located in the Atlantic City Convention Center, the Police Security Expo showcases products, goods, services and the latest high-tech advances in the field of law enforcement. The two-day event concludes June 21.

The DDSI and CGM Applied Security Technologies exhibit which, in addition to EvidPro, will feature a variety of other security products will be located at booth #721.

About Digital Descriptor Systems, Inc.

The company, based in Sea Girt, N.J., develops and markets integrated enterprise-wide image applications specifically designed for criminal justice organizations. Customers include states, cities, counties, corrections, justice, and public safety agencies. Additional information is available online, at www.ddsi-cpc.com.

Its subsidiary, CGM Applied Security Technologies, Inc., based in Somerset, N.J., is a leading manufacturer and distributor of Homeland Security products, including indicative and barrier security seals, security tapes and related packaging security systems, protective security products for palletized cargo, and physical security systems for tractors, trailers and containers, as well as a number of highly specialized authentication products. Safe Harbor Statement:

Safe Harbor Statement Under the Private Securities Litigation Act of 1995 - With the exception of historical information, the matters discussed in this press release are forward-looking statements that involve a number of risks and uncertainties. The actual future results of the Company could differ significantly from those

statements. Factors that could cause actual results to differ materially include risks and uncertainties such as the inability to finance the company's operations or expansion, inability to hire and retain qualified personnel, changes in the general economic climate, including rising interest rate and unanticipated events such as terrorist activities. In some cases, anyone can identify forward-looking statements by terminology such as "may," "will," "should," "expect," "plan," "anticipate," "believe," "estimate," "predict," "potential" or "continue," the negative of such terms, or other comparable terminology. These statements are only predictions. Although DDSI believes that the expectations reflected in the forward-looking statements are reasonable, such statements should not be regarded as a representation by the Company, or any other person, that such forward-looking statements will be achieved. DDSI undertakes no duty to update any of the forward-looking statements, whether as a result of new information, future events or otherwise. In light of the foregoing, readers are cautioned not to place undue reliance on such forward-looking statements. For further risk factors associated with our Company, review our SEC filings.
