

ControlScan Certifies Bunk-Beds-Loft-Beds.com As A Safe Shopping Site

In an effort to increase its Internet security, Bunk-Beds-Loft-Beds.com, the leading online provider of high quality children's bedroom furniture, today announced that it has become certified by ControlScan.

For Immediate Release

MARIETTA, Ga./EWORLDWIRE/June 26, 2006 --- As a measure to increase privacy and security and to prevent hackers and thieves from accessing sensitive information from its customers, www.bunk-beds-loft-beds.com hired ControlScan and subscribed to the Corporate Secure Plan. Through its unique process, ControlScan will conduct security tests and audits of www.bunk-beds-loft-beds.com and certify the site's security.

Once a company passes the security process associated with the Corporate Secure Plan they receive the Hacker Defended, ID Theft Protected, Privacy Protected and Business Background Reviewed certificates. These certificates are renewed daily, allowing www.bunk-beds-loft-beds.com's customers to receive independent third-party verification of the site's actual security before they decide to give out sensitive personal data.

"As information about privacy and security becomes more rampant, consumers are learning that it is not safe to give just any business their personal information. Likewise, businesses owners understand that they must take precautions to protect themselves and their customers from these criminals," said the owner Lisa Buschlen at www.bunk-beds-loft-beds.com. "By using ControlScan's Corporate Secure Plan we hope to give both parties the assurance that their transactions are secure."

About Corporate Secure Plan

ControlScan's security certifications are rapidly becoming the industry standard for privacy protection. The certificates assist in meeting the criteria for mandates in Europe, Japan, Canada, ISO and the United States. By using business plans unlike any other Internet security solution companies, ControlScan is able to custom protect companies and their consumers. As a business is put through the certification process, ControlScan is able to show the company where its weaknesses lie. If a company does not pass the test, ControlScan's experts work with the company to increase its security until they meet the standards. Therefore, customers who see ControlScan certifications on a Web site can shop with ease, knowing that the business is working towards ensuring consumer safety.

About Bunk-beds-loft-beds.com

Bunk-beds-loft-beds.com began selling children's bedroom furniture online in 2001 and has made it, its goal to provide the best customer service and user-friendly e-commerce environment in its industry.
