*Automated Ceiling Registers, LLC (ACR) was recognized for excellence in product design in the third annual Dealer Design Awards Program sponsored by The Air Conditioning Heating & Refrigeration News magazine.*

For Immediate Release

PLANO, Texas/EWORLDWIRE/June 27, 2006 --- Automated Ceiling Registers, LLC (ACR) was recognized for excellence in product design in the third annual Dealer Design Awards Program sponsored by The Air Conditioning Heating & Refrigeration News magazine. An independent panel of 45 contractors acted as judges in the contest that had 112 entries from 75 manufacturers. The company's Quick & Easy Ceiling Register System(TM) was the Bronze Award Winner in the Ventilation category. The ACHR News is the leading trade magazine in the heating, ventilating, air conditioning and refrigeration industries.

News publisher John Conrad stated, "This product design competition gives us the opportunity to recognize the outstanding product designs and innovations that make a dealer's job easier and faster. It also enables our readers to identify new product opportunities."

ACR president, Lynn Heitman, offered the following comments, "We are very pleased to receive recognition from such a prestigious industry trade magazine. This award is particularly important because an independent panel of contractors selected our product as one that offers real improvements in the time and effort required to install ceiling registers. The associated cost reductions and product improvements offer an exciting new alternative to contractors."

Winning entries in the Dealer Design Awards will be featured in the July 17, 2006 issue of The News, which is distributed nationally to over 32,000 HVACR contractors, wholesalers and other industry professionals.
