

Control Scan Certifies IslandImporter.Com as Safe Shopping Site

In an effort to increase its Internet security, IslandImporter.Com, the leading online beach wedding attire store, announced today that it has become certified by ControlScan, the Internet's first and only B2B third-party identity theft

For Immediate Release

ATLANTA, Ga./EWorldWire/Aug. 10, 2006 --- As a measure to increase privacy and security and to prevent hackers and thieves from accessing sensitive information from its customers, IslandImporter.Com hired ControlScan and subscribed to the Business Secure Plan. Through their unique process, ControlScan will conduct security tests and audits of islandimporter.com and certify the site's security.

Once a company passes the security process associated with the Business Secure Plan, it receives the Hacker Defended, Privacy Protected and Business Background Reviewed certificates. These certificates are renewed daily, allowing IslandImporter.Com customers to receive independent third-party verification of the site's actual security before they decide to give out sensitive personal data.

"As information about privacy and security becomes more rampant, consumers are learning that it is not safe to give just any business their personal information. Likewise, businesses owners understand that they must take precautions to protect themselves and their customers from these criminals," said the owner Sangeet Khalsa at IslandImporter.Com. "By using ControlScan's Business Secure Plan we hope to give both parties the assurance that their transactions are secure."

About IslandImporter.Com

IslandImporter.com, online Boutique for Beach Wedding Attire and #1 supplier of natural fiber clothing and resort wear, specializes in outfitting destination wedding parties in semi-formal and casual linen, cotton and raw silk clothing for grooms and bridesmaids.
