

Control Scan Certifies TennesseeOffRoad.Com as Safe Shopping Site

In an effort to increase its Internet security, TennesseeOffRoad.Com, the leading four- wheel drive parts, accessories, & installation shop, today announced that it has become certified by ControlScan.

For Immediate Release

ATLANTA, Ga./EWorldWire/Aug. 10, 2006 --- As a measure to increase privacy and security and to prevent hackers and thieves from accessing sensitive information from its customers, TennesseeOffRoad.Com hired ControlScan and subscribed to the Business Secure Plan. Through its unique process, ControlScan will conduct security tests and audits of tennesseeoffroad.com and certify the site's security.

Once a company passes the security process associated with the Business Secure Plan, it receives the Hacker Defended, Privacy Protected and Business Background Reviewed certificates. These certificates are renewed daily, allowing TennesseeOffRoad.Com customers to receive independent third-party verification of the site's actual security before they decide to give out sensitive personal data.

“As information about privacy and security becomes more rampant, consumers are learning that it is not safe to give just any business their personal information. Likewise, businesses owners understand that they must take precautions to protect themselves and their customers from these criminals,” said the owner John McGee at TennesseeOffRoad.Com. “By using ControlScan's Business Secure Plan, we hope to give both parties the assurance that their transactions are secure.”

About TennesseeOffRoad.Com

Tennessee Off-Road is Nashville's premier four-wheel drive high performance shop, specializing in custom-built roll cages, bumpers and rock sliders. The company also carries a full line of parts and accessories from ARB, FabTech, Rubicon Express, WARN, BillStein and Interco just to name a few. For 4x4 needs, TOR is a one-stop place. Visit www.tennesseeoffroad.com or call at (615) 248-8638.

About ControlScan

ControlScan provides third party verification and services to identify, measure and prioritize security, privacy, quality, accessibility and compliance risks that exist on corporate web properties. Solutions provide the visibility and control necessary to evaluate a company's Web property risk exposure, and to put processes and procedures in place to effectively implement online governance strategies.
