

E-World Recyclers Opens Company Doors In North County

Recycling for Today's Electronic World

For Immediate Release

VISTA, Calif./EWORLDWIRE/Jan. 15, 2007 --- E-World Recyclers, an electronic waste collecting and recycling company, has recently opened its doors in Vista, Calif. E-World Recyclers accepts a wide variety of electronic waste for disposal including monitors, televisions, computer towers, hard drives, printers, copiers, fax machines and cellular phones - generally any plug-in electronic devices (with the exception of white goods such as refrigerators, freezers and washerdryer units).

"E-World Recyclers is dedicated to the proper disposal of electronic waste," says Bob Erie, CEO. "Our vision is to be a leader within the electronic recycling industry, promoting and maintaining the highest level of environmental integrity and product stewardship. E-World Recyclers will provide clients with immediate reporting, verification of downstream recycling and government compliance, and personal attention to the specific needs of our clients."

As participants in the State of California's Electronic Recycling Program, E-World Recyclers offers cost-free services for businesses, households, non-profits, educational institutions and government agencies within California disposing of obsolete electronics covered by the State's program. CRT-containing equipment, which includes monitors, televisions, and generally any visual display device with a screen larger than four inches in diameter, make up the majority of obsolete equipment currently recycled through the program. Other obsolete electronics such as laptops and LCD Monitors are also included in the program.

E-World Recyclers provides clients with verification of proper destruction, pickup services within San Diego County, hard drive shredding for the protection of proprietary information, and additional tracking and asset management upon request.
