

## **ZARZAR LAND Internet Land Sales Span Across The Globe**

*Land group leading the way in the evolution of Internet Real Estate*

For Immediate Release

SAN DIEGO/EWORLDWIRE/Jan. 25, 2007 --- By means of the Internet, ZARZAR LAND provides consumers all around the world the opportunity to acquire undeveloped American land at one of the lowest prices in the industry.

Using eBay (NASDAQ: EBAY) as a platform, clients can visit the company Web site ('<http://www.zarzar.com>') and bid on properties with a simple click of the mouse.

"We have been working hard to establish our company," said Kristen Igo, public relations representative. "The majority of our clients are based throughout the world and because of that, we have been expending great efforts to accommodate the differences in language barriers, financing and time zones. With the Internet at hand, individuals physically located on the other side of the world are no longer shut out of the North American real estate market."

ZARZAR LAND's highly-trained staff works closely with various government agencies and institutions to obtain land within the continental United States and Canada. The majority of the properties are located in states such as California, Colorado, Florida, Michigan, Nevada, New Mexico, Oregon and Texas.

Listings are available to bid upon 24-hours a day, seven days a week, conveniently through any computer with Internet access. Without the hassle of third parties, ZARZAR LAND works to ease the purchasing process for clients by handling paperwork and all other procedures from beginning to end. ZARZAR LAND is working extremely hard to change land acquisitions for the small investor.

Individuals win properties by placing the highest bid which also constitutes as the down payment. Auction winners continue to make monthly installments from as little as \$100 a month depending on the particular property.

ZARZAR LAND will soon be using satellite services to provide clear visuals of the properties at hand. This is a

---

very convenient process because the individual can get a feel for the property without even setting foot on the land.

#### About ZARZAR LAND

ZARZAR LAND was founded on December 1998 with the simple mission of providing quality real estate to millions of individuals throughout the world who had the desire to acquire real estate but did not have the financial means or expertise. ZARZAR LAND is one of the most prestigious land groups of its kind and works closely with various government agencies and institutions in order to acquire thousands of properties throughout the United States. ZARZAR LAND's headquarters are in beautiful San Diego, Southern California. Learn more at '<http://www.zarzar.com>'.
