

Indoor Environmental Expert, Craig Whittaker of Environmental Solutions Group, Presents Paper At National Conference

Craig Whittaker presented a paper at the 10th Annual Meeting and Exposition of the Indoor Air Quality Association in Las Vegas on October 16, 2007

For Immediate Release

GREENSBORO, N.C./EWorldWire/Oct. 22, 2007 --- Craig Whittaker presented a paper entitled, "Applications of the Laser Particle Counter in an IAQ Investigation" at the 10th Annual Meeting and Exposition of the Indoor Air Quality Association held at the Rio All-Suites Hotel & Casino in Las Vegas.

The Indoor Air Quality Association is comprised of over 5000 professionals, consultants and contractors whose collaboration created a dynamic meeting with expanded educational opportunities. The speakers included two dozen notable industry experts, including Bill Nye 'The Science Guy' and representatives of the Environmental Protection Agency.

As President of Environmental Solutions Group (ESG), Mr. Whittaker has assessed over one thousand properties for indoor microbial growth, air quality issues and moisture incursion. He is highly regarded as an indoor environmental investigator and problem solver.

The Indoor Air Quality Association represents the largest professional group in the world dedicated to indoor air quality. Most members hold professional certifications such as CIH or CSP, are professional engineers, or hold doctoral degrees.

Environmental Solutions Group investigates residential and commercial properties for indoor contamination from mold, lead, asbestos, bacteria, dust and chemical hazards. Utilizing the latest technologies, ESG combines science and common sense to develop remedial plans for the property owner. ESG is also a certified energy rater for builders and homeowners who wish to have the Energy Star designation.
