

Sycamore Professional Generators Power Up For Hurricane Dolly

Sycamore Professional works with Texas Distributors

For Immediate Release

BROWNSVILLE, Texas/EWORLDWIRE/July 23, 2008 --- Sycamore Professional has initiated its disaster preparedness program as Hurricane Dolly bears down on the southern coast of Texas. Predictions are that many will lose power throughout the region, and Sycamore has readied its Texas distributors, MIS Group and Engine Warehouse Inc., with generators to supply their local dealers.

In addition to stocking its distribution centers in Texas cities, Sycamore Professional is sending volunteers from the company to assist in the affected areas. The company will be closely monitoring sales to ensure buyers in the area aren't the victims of price gouging, activity Sycamore Professional always monitors closely.

Matt Donohue, vice president of sales for Sycamore, says that by the time Hurricane Dolly makes landfall around Brownsville, the storm is expected to bring sustained winds of 95 MPH and up to 10 inches of rain during the next few days, which could cause widespread flooding. "Although we sell year-round through our dealership network around the country, storms of this magnitude always bring a spike in sales with the above normal coastal storm surges," Donohue said.

Sycamore's generators feature eSafe technology which means they produce the cleanest power in the industry. This is especially important as most homeowners try to protect appliances and equipment from power surges that can occur with many other generators.

Associated dealers are qualified to give expert advice and service. The models offered include units from 2000 watts to 7500 watts. All are easy to start, ultra-quiet, and always reliable. Sycamore Professional Generators come standard with a portability kit and a comprehensive two-year warranty.

Founded in 2004, Sycamore Professional is quickly becoming a major player in the portable generator industry with its state-of-the-art generators and a "BE MORE" attitude. Those at Sycamore pride themselves on a growing dealer network. President Doug Peacock comments, "We have extremely high standards and strive to provide the best for all our customers."
