IQeye Alliance Dome With H.264 And Audio Adds Exterior Models

IQinVision's popular vandal-resistant megapixel line now complete

For Immediate Release

SAN JUAN CAPISTRANO, Calif./EWorldWire/Sep. 11, 2008 --- IQinVision, market leader in high-performance megapixel network cameras, smart IP cameras, and network video recording systems, today announced the further expansion of its IQeye PRO LINE with the addition of IQeye Alliance Dome exterior models.

The exterior IQeye Alliance Domes have an IP66 environmental rating and wide temperature range, and their rugged, die-cast metal construction and durable GEtm Lexan domes make them tough enough for the most demanding applications. Alliance Domes with H.264 and bi-directional audio are available from VGA all the way up to high-definition 2-megapixel resolution.

"Our IQeye Alliance Domes have been very popular due to their reliability, ease of installation, and superior picture quality, so we've expanded the line to meet that demand and to respond to our customers' added specifications," said Pete DeAngelis, President and CEO for IQinVision.

The exterior IQeye Alliance Domes and associated accessories will be publicly unveiled at the upcoming ASIS security tradeshow in Atlanta, Georgia, September 15-17, 2008. Customer shipments will commence the first week of November.

About IQinVision

IQinVision is the world leader in megapixel IP video. Since 1998, IQinVision has been designing, manufacturing, and marketing the IQeye family of high-performance network cameras, intelligent cameras, and network video recording (NVR) systems. Committed to leading the industry with highly-valued products and customer service, IQinVision was first to market with HDTV and megapixel cameras and has received numerous awards from Frost & Sullivan, ST&D, Detektor, IIPSEC, and others. IQeye network cameras are renowned for image quality, stability, and reliability in the most demanding network conditions and environments. The IQeye acts as a stand-alone NVR or integrates with third-party NVR and video analytics software for enterprise-wide deployments. IQinVision products are available as IQeye-brand, private-labeled, or OEM models, and have been widely deployed in city center, property management, education, retail, casino, government, transportation, and a number of other vertical market applications. IQinVision is a privately-held corporation headquartered in San Juan Capistrano, California with regional offices in Lancaster, Pennsylvania and Utrecht, Netherlands.
