NeuroHealing Pharmaceuticals Inc.

Oct. 6-7: NeuroHealing Pharmaceuticals To Present At Drug Repositioning Summit In Boston

Media Advisory

NEWTON, Mass./EWORLDWIRE/Sep. 24, 2008 --- NeuroHealing Pharmaceuticals, a private clinical stage company developing innovative products for individuals with chronic brain injuries and neurodegenerative diseases, will present a talk entitled, "There's Still Low Hanging Fruit: Three Repositioned Drugs in Clinical Testing for Brain Injury Patients," at the third annual Drug Repositioning Summit: Finding New Routes to Success. The conference will be held on October 6-7, 2008 in Boston, Mass., organized by Cambridge Healthtech Institute. Neal M. Farber, Ph.D., CEO of NeuroHealing, will present case studies on the company's three repositioned products in development for new indications - each with early evidence of clinical efficacy, extensive human safety data and based on novel formulation and/or drug delivery strategies.

Information about the conference may be obtained from '<http://www.healthtech.com/rjv/overview.aspx?c=525>'.

About NeuroHealing Pharmaceuticals

NeuroHealing Pharmaceuticals, Inc. is a clinical stage company developing therapies to improve the neuro-rehabilitation process and functional outcome for patients who have suffered debilitating injuries to the central nervous system.

Clinical stage programs include:

- . NH001 (phase II), a dopaminergic agent reformulated to be administered via a continuous sc pump to accelerate the recovery and improve the cognitive and functional outcome of patients from a coma following a traumatic brain injury
- . NH004 (phase II), an anticholinergic drug reformulated in an intra-oral, muco-adhesive, slow dissolving thin strip designed for patient convenience to control sialorrhea (drooling); and NH02D, a stereoisomer of a marketed, novel mechanism drug reformulated for sublingual delivery
