

Sitestar Internet Service Provider Announces National Dial-up Expansion

For Immediate Release

LYNCHBURG, Va./EWorldWire/Nov. 20, 2003 --- Sitestar Corporation(OTCBB: SYTE), an Internet Service Provider (ISP) and computer services company, announced today the launch of its national dial-up Internet service which is now available in thousands of cities throughout the United States. The new service features SurfBoost(TM) Broadband Dial-Up technology which includes web acceleration, e-mail acceleration and pop-up ad blocking. Spam and virus filtering are also included. Sitestar is marketing this service under the brand name SurfWithUs.Net to differentiate its regional service from its national service.

"We set out to create an entirely new kind of Internet service, and that is what we have done with SurfWithUs.Net. At the core of the product, we have a premium dial-up Internet service. We added patent-pending SurfBoost Web acceleration to rival DSL speed over dial-up, e-mail acceleration to reduce transfer times, pop-up ad blocking and spam/virus filtering. It is a tremendous value, all for a great price that is less than what other premium providers charge just for their basic dial-up service," said Frank R. Erhartic, Jr., Sitestar's President and CEO.

"Our service has been limited to a regional footprint, but thanks to recent partnerships with the same national carriers that the other large Internet Providers use, this is a thing of the past. There are over 75 million residential Internet users in the United States," adds Erhartic. "We see a tremendous market that we have not yet realized and we want a bigger piece of that pie. Our goal is to grow from a Top 100 Dial-up Internet Provider to a Top 10 Dial-Up Internet Provider. We can achieve this through aggressive marketing, superior service and by offering a better value than most national providers."

To expand the company's market share, SurfWithUs.Net's business model includes not only traditional advertising, but also Internet advertising and a Referral Rewards program. "We believe that our marketing efforts with this new offering will greatly expand our revenues and increase our shareholder value," says Erhartic.

SurfWithUs.Net's flat-rate dial-up Internet service starts at \$19.95 per month. Additional information is available by visiting the SurfWithUs.net Web site (<http://www.surfwithus.net>).

Forward looking statements
