PHOTO AVAILABLE: IQinVision Expands IQeye BASIC LINE With IQeye 5 Series

New models include AC/DC power input and analog video out features

For Immediate Release

SAN JUAN CAPISTRANO, Calif./EWorldWire/June 25, 2009 --- IQinVision (<http://www.iqeye.com>), market leader in high-performance megapixel network cameras, smart IP cameras, and network video recording systems, today announced the release of the IQeye 5 Series camera to complement the already-successful IQeye BASIC LINE of HD and megapixel cameras.

IQeye 5 Series cameras are available from HD 480p/VGA up to 2.0MP. In addition to low power consumption PoE, the new IQeye 5 Series cameras can also be powered directly using low voltage AC/DC.

"Our IQeye BASIC LINE has been very successful in cost-sensitive applications where our customers don't need the full feature set of our IQeye PRO LINE products," said Pete DeAngelis, president and CEO. "Many of these installations were not PoE yet, so we developed the IQeye 5 Series to provide a different form factor with the option to power the camera directly."

The IQeye 5 Series also has an analog out that can be used for focusing the camera - making installation simpler and more cost-effective. IQinVision is now taking orders for the IQeye 5 Series cameras, with volume shipments expected in mid-August.

About IQinVision

IQinVision is the world leader in megapixel IP video. Since 1998, IQinVision has been designing, manufacturing, and marketing the IQeye family of high-performance network cameras, intelligent cameras, and network video recording (NVR) systems. Committed to leading the industry with highly-valued products and customer service, IQinVision was first to market with HDTV and megapixel cameras and has received numerous awards from Frost & Sullivan, ST&D, Detektor, IIPSEC, and others. IQeye megapixel network security camera systems are renowned for image quality, stability, and reliability in the most demanding network conditions and environments. The IQeye acts as a stand-alone NVR or integrates with third-party NVR and/video analytics software for enterprise-wide deployments. IQinVision products are available as IQeye-brand, private-labeled, or OEM models, and they have been widely deployed in city center, property management, education, retail, casino, government, transportation, and a number of other vertical market applications. IQinVision is a privately-held corporation headquartered in San Juan Capistrano, Calif., with regional offices in Lancaster, Pa., and Amsterdam, Netherlands.
