

UL Certification Gives Green Light to GreenBrilliance for Nationwide Distribution of Solar Modules Range

Passes California Energy Commission (CEC) guidelines

For Immediate Release

HERNDON, Va./EWorldWire/Oct. 20, 2009 --- GreenBrilliance Energy Private Limited (Vadodara, India) ('<http://www.greenbrilliance.com>'), a wholly-owned subsidiary of GreenBrilliance Holdings LLC, has achieved UL 1703 certification and the authorization to mark the ETL (Intertek) logo on its solar modules, ranging from 200W to 280W.

GreenBrilliance modules have also been tested under California Energy Commission (CEC) guidelines and will be included in the list of eligible photovoltaic modules under the state's solar initiative program.

GreenBrilliance brings 200W, 230W and 270W series solar panels to the U.S. market and expects a large sales volume to be split between end-users (home and business owners) as well as solar panel distributors and installers looking for a great performing product. The panels are provided in the most popular sizes and are in high demand because they are ideal for large residential, commercial and utility scale applications.

"We are excited to achieve UL 1703 certification, which has come just in time for the fast-growing U.S. solar energy market. Our panels are high efficiency, high wattage and high performance, made with top quality workmanship under extremely stringent quality controls," said Mr. Sanjay Chandra, president, GreenBrilliance. "Our panels already had IEC 61215 and IEC 61730/TV certifications, and now UL 1703 certification opens up the entire U.S. market for us. The pre-order numbers are overwhelming. These panels will be available for pre-order directly through [GreenBrilliance.com](http://www.greenbrilliance.com) and by calling 1.888.365.ASKGB."

About GreenBrilliance ('<http://www.greenbrilliance.com>')

GreenBrilliance Energy Pvt. Ltd. (Vadodara, India) is the manufacturing arm of the global company, producing world-class, efficient crystalline solar modules for use in solar energy systems. The company's product line is comprised of large-size modules (72 cells, 60 cells, and 54 cells) and ranging from 200 Wp to 280 Wp.

GreenBrilliance LLC, based in the Washington, D.C. area, provides turnkey solar solutions for residential and commercial customers, with services including assessment, design, installation, maintenance and service.
