

## GreenBrilliance Solar Modules Eligible for California Solar Incentives

*Modules Achieve SB1 Compliance*

For Immediate Release

HERNDON, Va./EWorldWire/Dec. 7, 2009 --- GreenBrilliance Energy Private Limited (Vadodara, India) ('<http://www.greenbrilliance.com>'), a wholly-owned subsidiary of GreenBrilliance Holdings LLC, has achieved SB1 compliance under California's Solar Electric Incentive Program. GreenBrilliance's modules, ranging from 200 Wp to 270 Wp, are now eligible for the state's incentives.

GreenBrilliance expects a large sales volume for these 200W, 230W and 270W series solar panels in the California market, to be split between end-users (home and business owners), and solar panel distributors and installers looking for a great performing product. These panels are the most popular sizes and are in high demand as they are ideal for large residential, commercial and utility scale applications.

"We are excited to achieve SB1 compliance in California, which has come just in time for the fast-growing US solar energy market. Our panels are high efficiency, high wattage and high performance made with top quality workmanship under extremely stringent quality controls." said Mr. Sanjay Chandra, president, GreenBrilliance. "Our panels already had IEC 61215 and IEC 61730/TV certifications, and now UL 1703 and CEC certifications open up the entire U.S. market for us. These panels will be available for pre-order directly through [GreenBrilliance.com](http://GreenBrilliance.com) and by calling 1.888.365.ASKGB."

About GreenBrilliance ('<http://www.greenbrilliance.com>')

GreenBrilliance Energy Pvt. Ltd. (Vadodara, India) is the manufacturing arm of the global company, producing world-class, efficient crystalline solar modules for use in solar energy systems. The company's product line is comprised of large-size modules (72 cells, 60 cells, and 54 cells) and ranging from 200 Wp to 280 Wp.

GreenBrilliance LLC, based in the Washington, D.C. area, provides turnkey solar solutions for residential and commercial customers, with services including assessment, design, installation, maintenance and service.
