

Open Letter To The Public: Star Person, Dr. BeLeTe, Reports Warning To Planet Earth From God

For Immediate Release

BEVERLY HILLS, Calif./EWORLDWIRE/Dec. 30, 2007 --- Throughout history God has selected people to give warnings to the world. The first warning of modern times, Harry Bates was inspired by God to write, "The Day The World Stood Still." The movie was directed by Robert Wise.

The story was a warning and ultimatum from the universe to the people of Earth. We were warned against expanding the actions of war and turmoil into other planets. They are watching us.

The second warning came through the inspired writing of Roland Emmerich through the movie, "The Day After Tomorrow." The movie showed "the results from the depletion of the Ozone Layer (Global Warming) upon the planet if the ice melts or breaks up at the North or South Poles. If the ice totally melts at either pole, it would cause the earth's axis to be off balance and cause the earth to wobble. This would cause devastating earthquakes all over the planet and the water table would raise over 20 feet, causing the destruction of coastal cities.

This is the third and final warning: disaster is beginning to happen now - it is real. There are an increasing number of earthquakes occurring all over this planet; tornadoes, storms and fires are increasing. Wake up and see for yourself.

The following news headlines are just a few news accounts on Global Warming. Go to the Internet and read:

- 11/17/07. AOL.NEWS, "UN Panel Offer Dire Warming Forecast" by Arthur Max.
- 11/18/07. National Resources Defense Council, "Consequences of Global Warming."
- 11/18/07. Ask.com, "Health effects of Global Warming."
- 12/11/07. AOL NEWS AP, "Ominous Arctic Melt Worries Experts."
- 12/11/07. "Ice Storm turns Midwest to War Zones," James Beltrains AP

Every day there are reports of devastation in the world.

This press release is not written to cause panic, only to wake up the planet to take action now. We are running out of time. What we do now will determine the future of this planet.

I have been selected by God to deliver his third and final warning. People of this planet must unite now, to stop the continual destroying of the Ozone Layer. Man must do the following:

1. Stop space travel and rockets going into space. The main destroyer and enlarger of the Ozone Layer is exhaust from the booster rockets and the space ships going into outer space plus returning. We have all watched the launching of space ships and the exhaust they create.

The Scotsman.com News, October 21, 2006, stated, "The Ozone Layer goes from 9 to 30 feet from the earth." The report also stated, "Ozone Layer Hole, Bigger than North American."

I talked to someone at the Challenger Center, Mission Control, and was informed that in launching space ships, the boosters are released around 30 feet into the atmosphere. The exhaust destroys the Ozone Layer in its path and widens the hole as they drop off to return. Likewise the exhaust from space ships expands the size of the Ozone Hole and destroys the Ozone Layer in its path as they return.

2. End all wars. The world needs to concentrate on saving the planet and spend the money on alternative methods to power the world.

3. Reduce travel by airplanes. Their exhaust also has an effect upon the Ozone Layer. I have a method to reduce the exhaust from planes by 50 percent.

4. Reduce the use of buses using gasoline and develop trolley cars.

5. Stop cutting down live trees. Everyone around the world needs to plant trees, shrubs and green foliage.

We must do it now, not tomorrow or the next day.

God has given me the vision and technical knowledge to develop three motors that will operate on air alone; no gasoline, oil or water. They are:

- a. Automobile engine that operates on air alone; no gasoline, oil or water. Continuous running will not need to stop to refill.
- b. A motor designed to provide electrical power to cities; powered by air alone.
- c. A redesign of the wind mill. My design may produce 4 times the amount of electrical power than a windmill, requiring less wind.

I need assistance to start development on the air motors.

If we don't close the size of the Ozone Hole, in the near future people with white and light skins will not be able to go out in the sun because the ultraviolet radiation exposure may cause them to get skin cancer.

This is the last warning from God - Star People all over the world: stand up and fulfill your destiny.

I have a message for the United Nations, from God, and would like to deliver it to that body.

If we don't heed this warning and immediately start implementing the above changes, given to me by God, may God have mercy on this planet and on its inhabitants.
